How do I answer a CIE IGCSE Business 6-mark 'explain' question?

Guidance

- In 6-mark explain questions, you achieve your marks as follows:
  - 1 mark for each valid knowledge point [K]—up to a maximum of two
  - 1 mark for relevant application [Ap] made on each point — up to a maximum of two
  - 1 mark for the relevant analytical development [An] of each point — up to a maximum of two
- You must **support points with relevant evidence** and develop **chains of reasoning** to develop your points

Example

- **Question samples**
  - **Explain one advantage and one disadvantage** of Oscar using leaflets to advertise his business
  - **Explain two** advantages to Raul's business of selling direct to a manufacturer
- The response below would achieve 6 marks as it
  - Clearly sets out **two advantages**, with specific **references to the business**
  - Develops **strong chains of reasoning**, including relations and how/why points are linked

Raul owns a small farm that grows oranges. His farm is based in country Z. Like all primary sector activities, farming creates external costs and external benefits. Raul sells all 600 tonnes of his oranges directly to a drinks

Got it

of its economic objectives but how will it affect companies that export to country E?'

Explain two advantages to Raul's business of selling direct to a manufacturer.

Knowledge Application Analysis

A farmer selling directly to the manufacturer means there are no intermediaries to pay so Raul's farm will receive all of the revenue for their oranges maximising profits.

Also, Raul does not need to find retailers as the manufacturer buys most of the oranges to manufacture drinks, so he will save on marketing costs and reduce the farm's cash outflows

Two correct points are applied to the case study

They are developed with chains of reasoning
