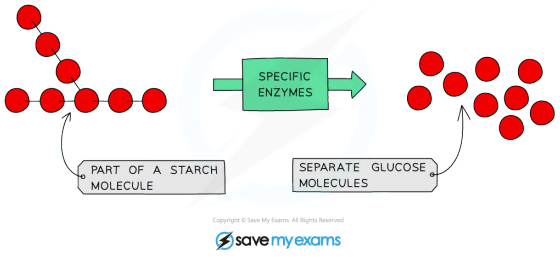
Help me understand

Enzymes in Digestion

Amylases

- **Amylases** are produced in the **mouth** and the **pancreas** (secreted into the **duodenum**)
- Amylases digest **starch into smaller sugars**



The digestion of starch

Proteases

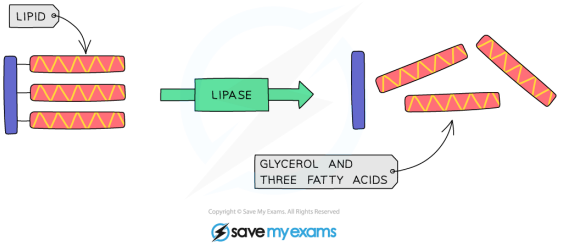
- Proteases are a group of **enzymes that break down proteins into amino acids** in the stomach and small intestine (with the enzymes in the small intestine having been produced in the pancreas)

Stuck on something?
Ask questions and get help with exactly what you're revising.
Got it

The digestion of proteins

Lipases

- **Lipase** enzymes are produced in the **pancreas** and secreted into the **duodenum**
- They digest **lipids into fatty acids and glycerol**



The digestion of lipids
