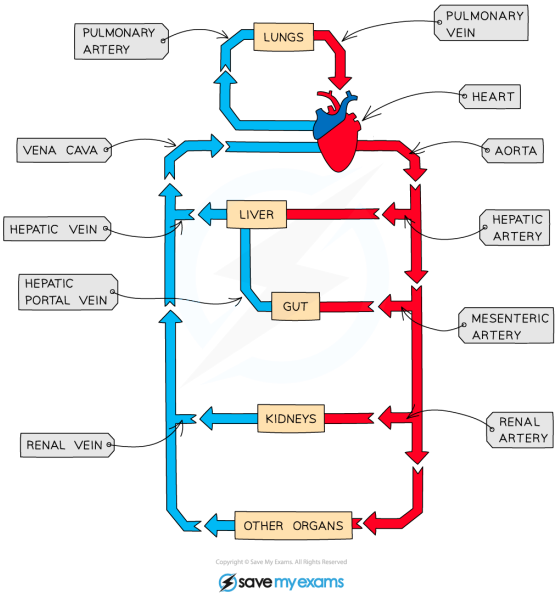
Blood Vessels & the Liver: Extended

Extended Tier Only

- You must be able to identify the main blood vessels to and from the liver
  - The **hepatic artery** brings oxygenated blood from the heart to the liver
  - The **hepatic vein** brings deoxygenated blood from the liver back to the heart
  - The **hepatic portal vein** transports deoxygenated blood from the gut to the liver



The liver is supplied with blood by the hepatic artery and the hepatic portal vein, and blood is carried away from the liver in the hepatic vein
