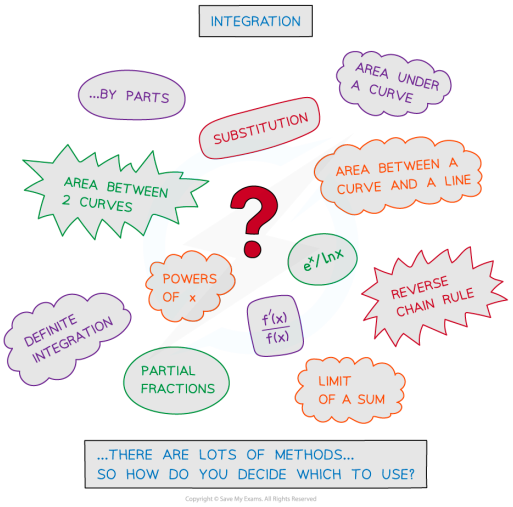
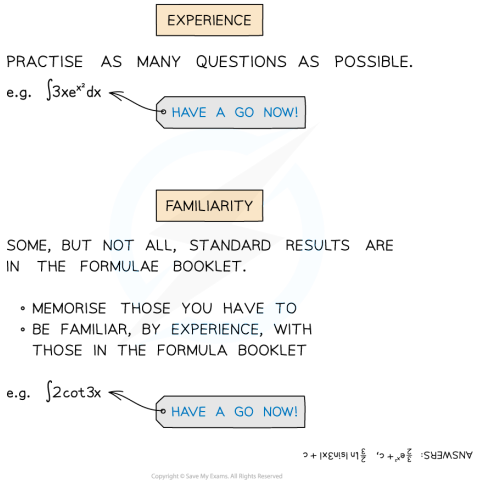
Integration decision making

What is integration decision making?

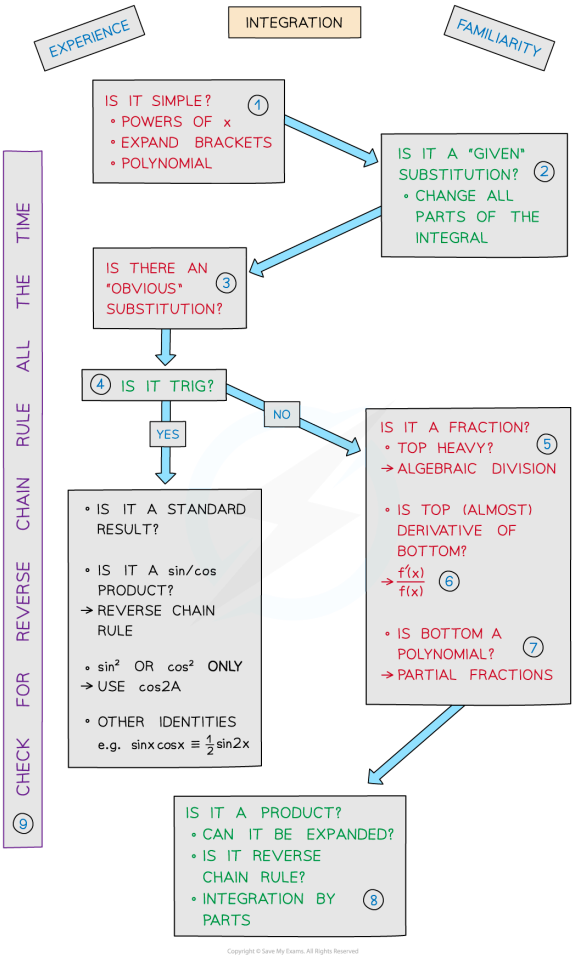
- The hardest part of integration is deciding which technique to use
- There are lots of them!



Stuck on something?
Ask questions and get help with exactly what you're revising.
Got it



- The main two requirements for success with integration are
  - **Experience**
  - **Familiarity**
- Always check for Reverse Chain Rule ...
  - ... particularly after changing part of an integral ...
  - ... by using a trig identity for example



(2) Substitution

(3) Obvious substitution

(4) Trig

(5) Algebraic Division

(6) $\frac{f'(x)}{f(x)}$

(7) Partial fractions

(8) Integration by Parts

(9) Reverse Chain Rule

Examiner Tips and Tricks

- If in doubt, try something ... You may gain marks for attempting a suitable substitution.
- You may gain marks from using a trig identity.
- You may gain marks from attempting to simplify or rewrite a fraction.
